COMMENTS:

Hi everyone. My how time flies. I have settled in the La Center area with my wife and three girls (12, 10 and 16M.) They keep me very busy and are great fun. Traveled the Western states with PayLess Drug for 13 years while working in their Store Planning Dept and then Telecom. It was a great job, but sadly ended when the company was bought and moved to the East coast. Ended up at Kaiser about four years ago and manage the Telecommunications Dept. It is a good job and much closer to home, which allows me to spend more time with the family and relaxing in my garden. Life is good! Send me a note. Would love to hear from you.

ACTIVITIES AT PRAIRIE: Gosh, all these questions are for people who are actually involved in school, I only went cause I had to.

COMMENTS:

Personally high school was the worst time of my life, but that's OK cause life has been so much better since. I've been married since 96 and have 2 dogs. I love Western North Carolina, the mountains and the weather is fantastic and so are the people. I spend most of my spare time on a bike, both mountain and road, and if there's any time left over in the yard. The reason I am posting on this site is I am interested in having some contact with people from high school. I spent a lot of my time blocking people out in high school (otherwise known as shy). Now I'm not shy at all and am very interested in knowing people I should have spent time getting to know when I was around them.

WOW, this was a memory jog back in time for me. Read all the names and could picture faces. I was shocked to see the names of our classmates who have passed on. Warm regards to their families. Well here's a little info on what I have been doing over the past years. I served in the United States Navy from June 20, 1988 - May 9, 2000. Gulf War, Somalia Vet. Lived in Hawaii for a majority of my time in the Navy. Owned an automotive performance shop in Haliewa, HI (North shore area) and a small computer company in Honolulu. Hope to hear from you people! COMMENTS:

I look back now and appreciate what we had and what my kids will never have. We had cliques but when it really mattered I feel we had unity. It seems to me that even though we may have our diffs, when it came to parties or get-togethers and even graduation, everyone was the same. I feel that our class had a very close relationship with each other even though we may not have admitted then may not even know. But, we all look out for each other no matter who they were and that's what makes us the best graduating class.
